How will the project fit into the communities?

During past public meetings and by talking to people who live and work near the project, we received input on design elements to include in the Opportunity Corridor that would help it fit into the surrounding neighborhoods. Some of these things could be built as part of the project. These include pedestrian and bicycle paths, benches and bike racks at proposed transit stops, and a landscaped median that is visually pleasing and helps manage stormwater runoff.

Once the money to build the project has been identified, we will come back to the public to determine where to include these items along the road.

Will the Opportunity Corridor Affect Historic Resources?

There is a chance that two historic buildings – Segelin’s Florist and Tudor Arms – may be affected by the project. Section 106 of the *National Historic Preservation Act* requires Federal agencies to consider the effects of their actions on historic properties.

Section 106 also requires consultation among parties with an interest in the effects of the project on historic properties. If you would like to be included in this process as a consulting party, you must fill out an application. Based on your application, ODOT will decide if you meet the requirements to become a consulting party. Applications are available at this meeting. You may also request one through the ODOT project contact listed to the right. Because consultation is a process of discussing options, considering multiple views, and looking for agreement among a variety of parties, your regular attendance, active participation, and constructive comments will be expected through the process.

How can I get involved?

We encourage you to get involved in the Opportunity Corridor project. One of the best ways for you to take part right now is to comment on the Recommended Preferred Alternative. Comments are welcome at any time, but we would like your input on the Recommended Preferred Alternative by August 12, 2011 so we can take it into account as we develop the Draft Environmental Impact Statement (DEIS).

We are working hard to give you different ways to provide your ideas, including the project website at www.buckeyetraffic.org/opportunitycorridor

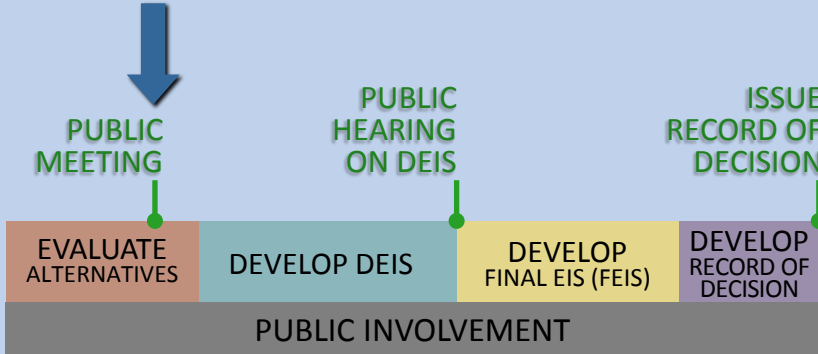

Questions and comments can also be emailed to Jaclyn.Schafer@dot.state.oh.us

or mailed to:
ODOT District 12
Jackie Schafer
5500 Transportation Boulevard
Garfield Heights, OH 44125

What are the next steps?

The purpose of this public meeting is to get your input on the Recommended Preferred Alternative. Based on your input, we will evaluate the Recommended Preferred Alternative in more detail as part of the DEIS. During that time, we will keep looking at ways to avoid, minimize and mitigate possible impacts. We will come back to the public next year to present the findings of the DEIS and get input on the final alternative.

WE ARE HERE

Opportunity Corridor
Public Information Meeting

July 26th-28th, 2011

What is the Opportunity Corridor Project?

The purpose of the Opportunity Corridor Project is to improve the transportation system and support planned growth in the areas between I-490/I-77 and University Circle in Cleveland. The project is being led by the Federal Highway Administration (FHWA) and the Ohio Department of Transportation (ODOT). FHWA and ODOT are working very closely with City of Cleveland and the Greater Cleveland Partnership (GCP) to develop the project. So far, we have completed a number of engineering and environmental studies and asked for your ideas about how to improve the transportation system. Now, we want to hear your thoughts about the single remaining alternative – which is called the Recommended Preferred Alternative.

The recommended preferred alternative would build a new road with a wide median and traffic signals. This is also called a “boulevard.” The boulevard would connect I-490/E. 55th Street to E. 105th Street/Chester Avenue. It would also include pedestrian and bicycle paths, tree lawns, landscaping, and access to RTA buses and trains.

What is the current status of the project?

In October 2010, the study team held a number of meetings with residents and business owners to gather input on the alternates* described below.

West	Central	East
Alternate A: Traffic signal at I-490/E. 55 th Street	Alternate A: Disconnect Woodland Avenue between E. 89 th and E. 93 rd Street	Alternate C: Widen E. 105 th Street between Quincy Avenue and Cedar Avenue to the east; Widen 105 th Street between Cedar Avenue and Chester Avenue (based on best-fit)
Alternate C: Bridge E. 55 th Street over I-490 and the proposed roadway; two traffic signals and a new connector road in the southeast area to give access to and from E. 55 th Street	Alternate B: Keep Woodland Avenue connected	

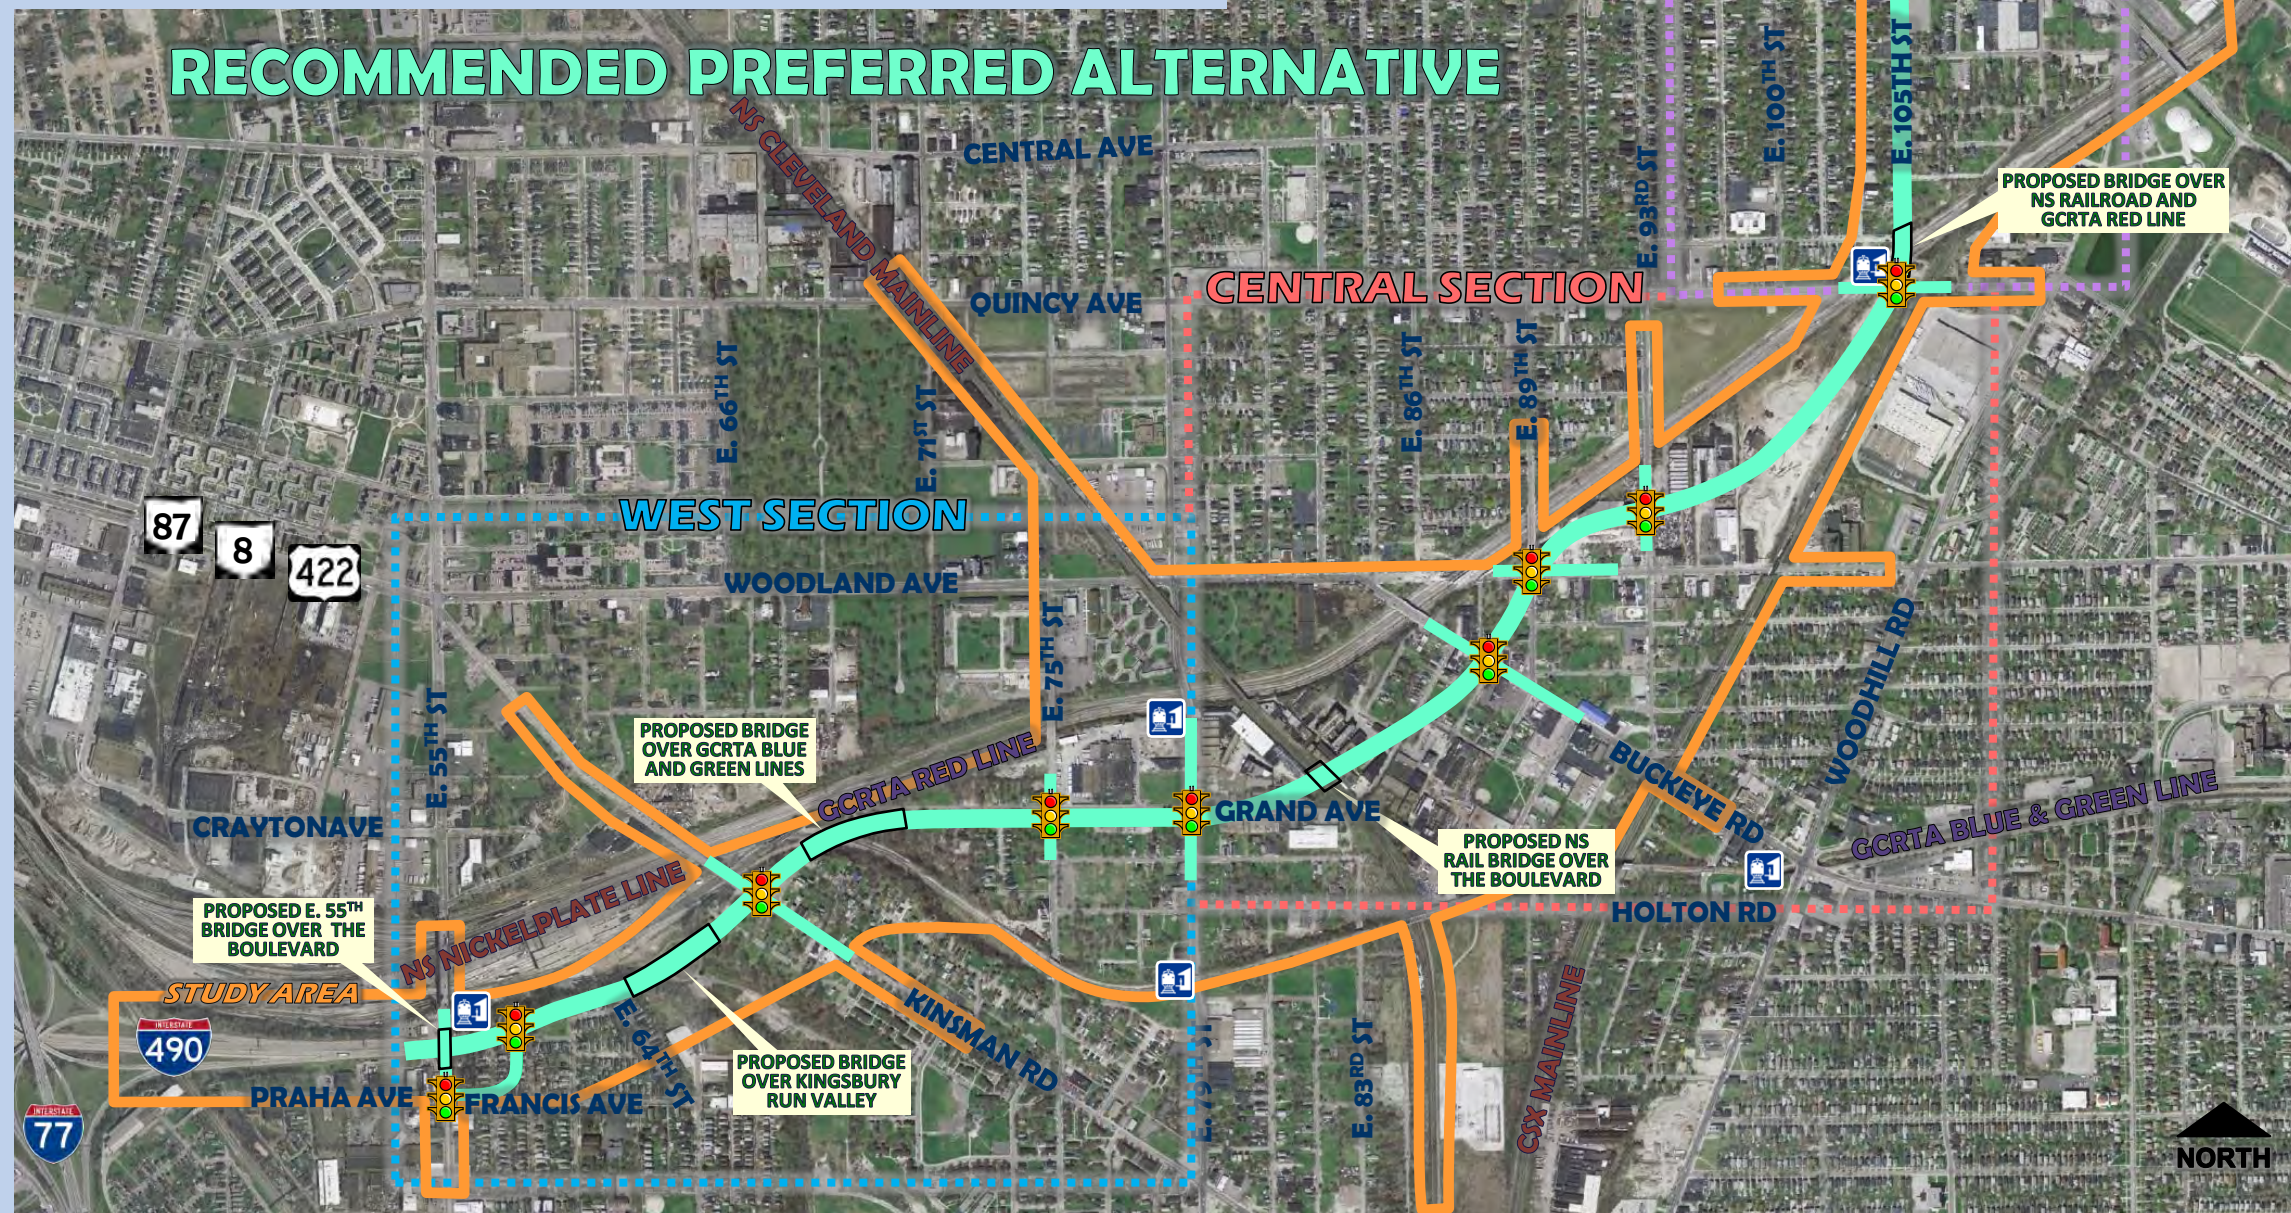

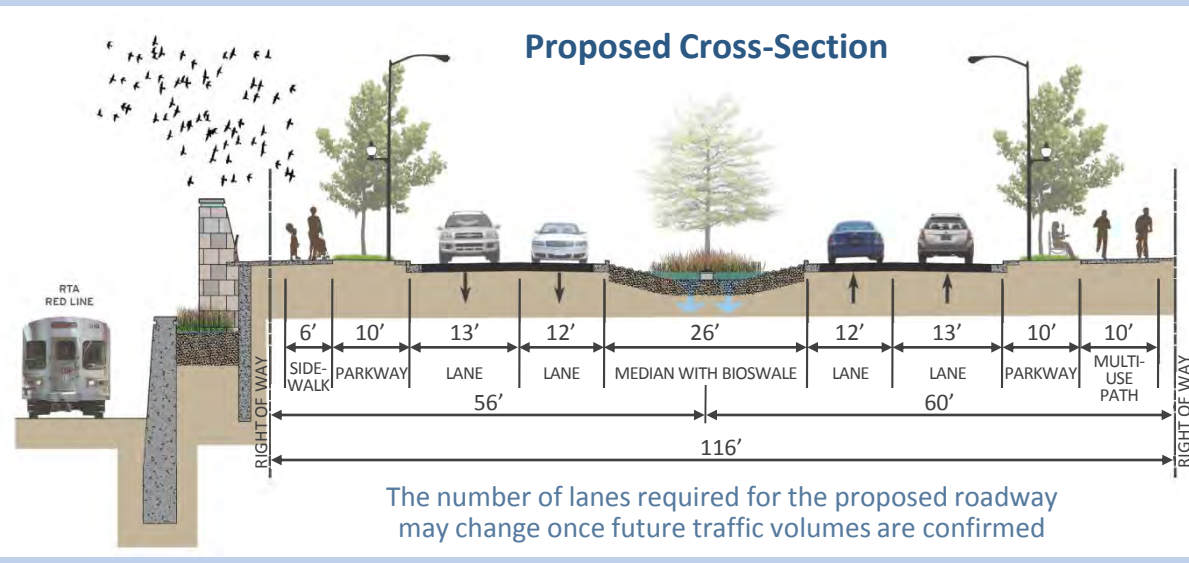

Since the last public meeting in October 2010, the study team took a closer look at future traffic volumes, the engineering designs, and reviewed all the comments and input received from the public. This led to the removal of West Alternate A and Central Alternate A from further consideration (see the inside of this hand-out for more information). This left one alternate in each section. Together, these alternates form one end-to-end alternative for the whole project length. This is the **Recommended Preferred Alternative** that we plan on looking at in more detail in the Draft Environmental Impact Statement (DEIS). The DEIS will also look at a no-build – or “do nothing” – alternative.

The latest estimated traffic volumes showed that it may be possible to reduce the number of lanes on the boulevard from six to four. Because of this, the current project information is based on a four-lane road. We are currently working with the City of Cleveland and GCP to include traffic from planned growth in the area. Depending on these results, it is possible that a six-lane road could still be required.

*What is an alternate?

For Opportunity Corridor, the study team broke the project into three sections: West, Central and East. Then, we developed options—called **alternates**—for each section. This lets us take a closer look at the best ways to improve the roads in each section. Adding together one alternate from each of the three sections gives you an **end-to-end alternative** for the whole project length.

WEST

West Alternate A - reasons it was not recommended:

- Traffic flow and safety in the "weave section" on I-490 between the I-77 ramps and E. 55th Street get even worse than they are today.
- Requires rebuilding the I-77/I-490 interchange, resulting in very high project costs and more impacts.
- Large intersection area at E. 55th Street makes crossing the road difficult and dangerous for pedestrians.

West Alternate C – reasons it was recommended:

- Improves traffic flow and safety by removing the "weave section" on I-490 between the I-77 ramps and E. 55th Street.
- Improves pedestrian flow and safety when using the GCRTA station at E. 55th Street.

CENTRAL

Central Alternate A – reasons it was not recommended:

- Woodland Avenue is cut-off between E. 89th Street and E. 93rd Street, which was less liked by the community and the City of Cleveland.

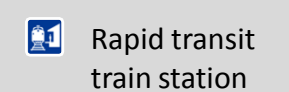

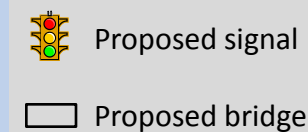

Central Alternate B – reasons it was recommended:

- Keeps Woodland Avenue connected between E. 89th Street and E. 93rd Street, which was preferred by the community and the City of Cleveland.
- Has better traffic flow than Central Alternate A.

EAST

East Alternate C – recommended from October 2010 public meetings for the following reason:

- Has the least overall impacts from widening E. 105th Street.

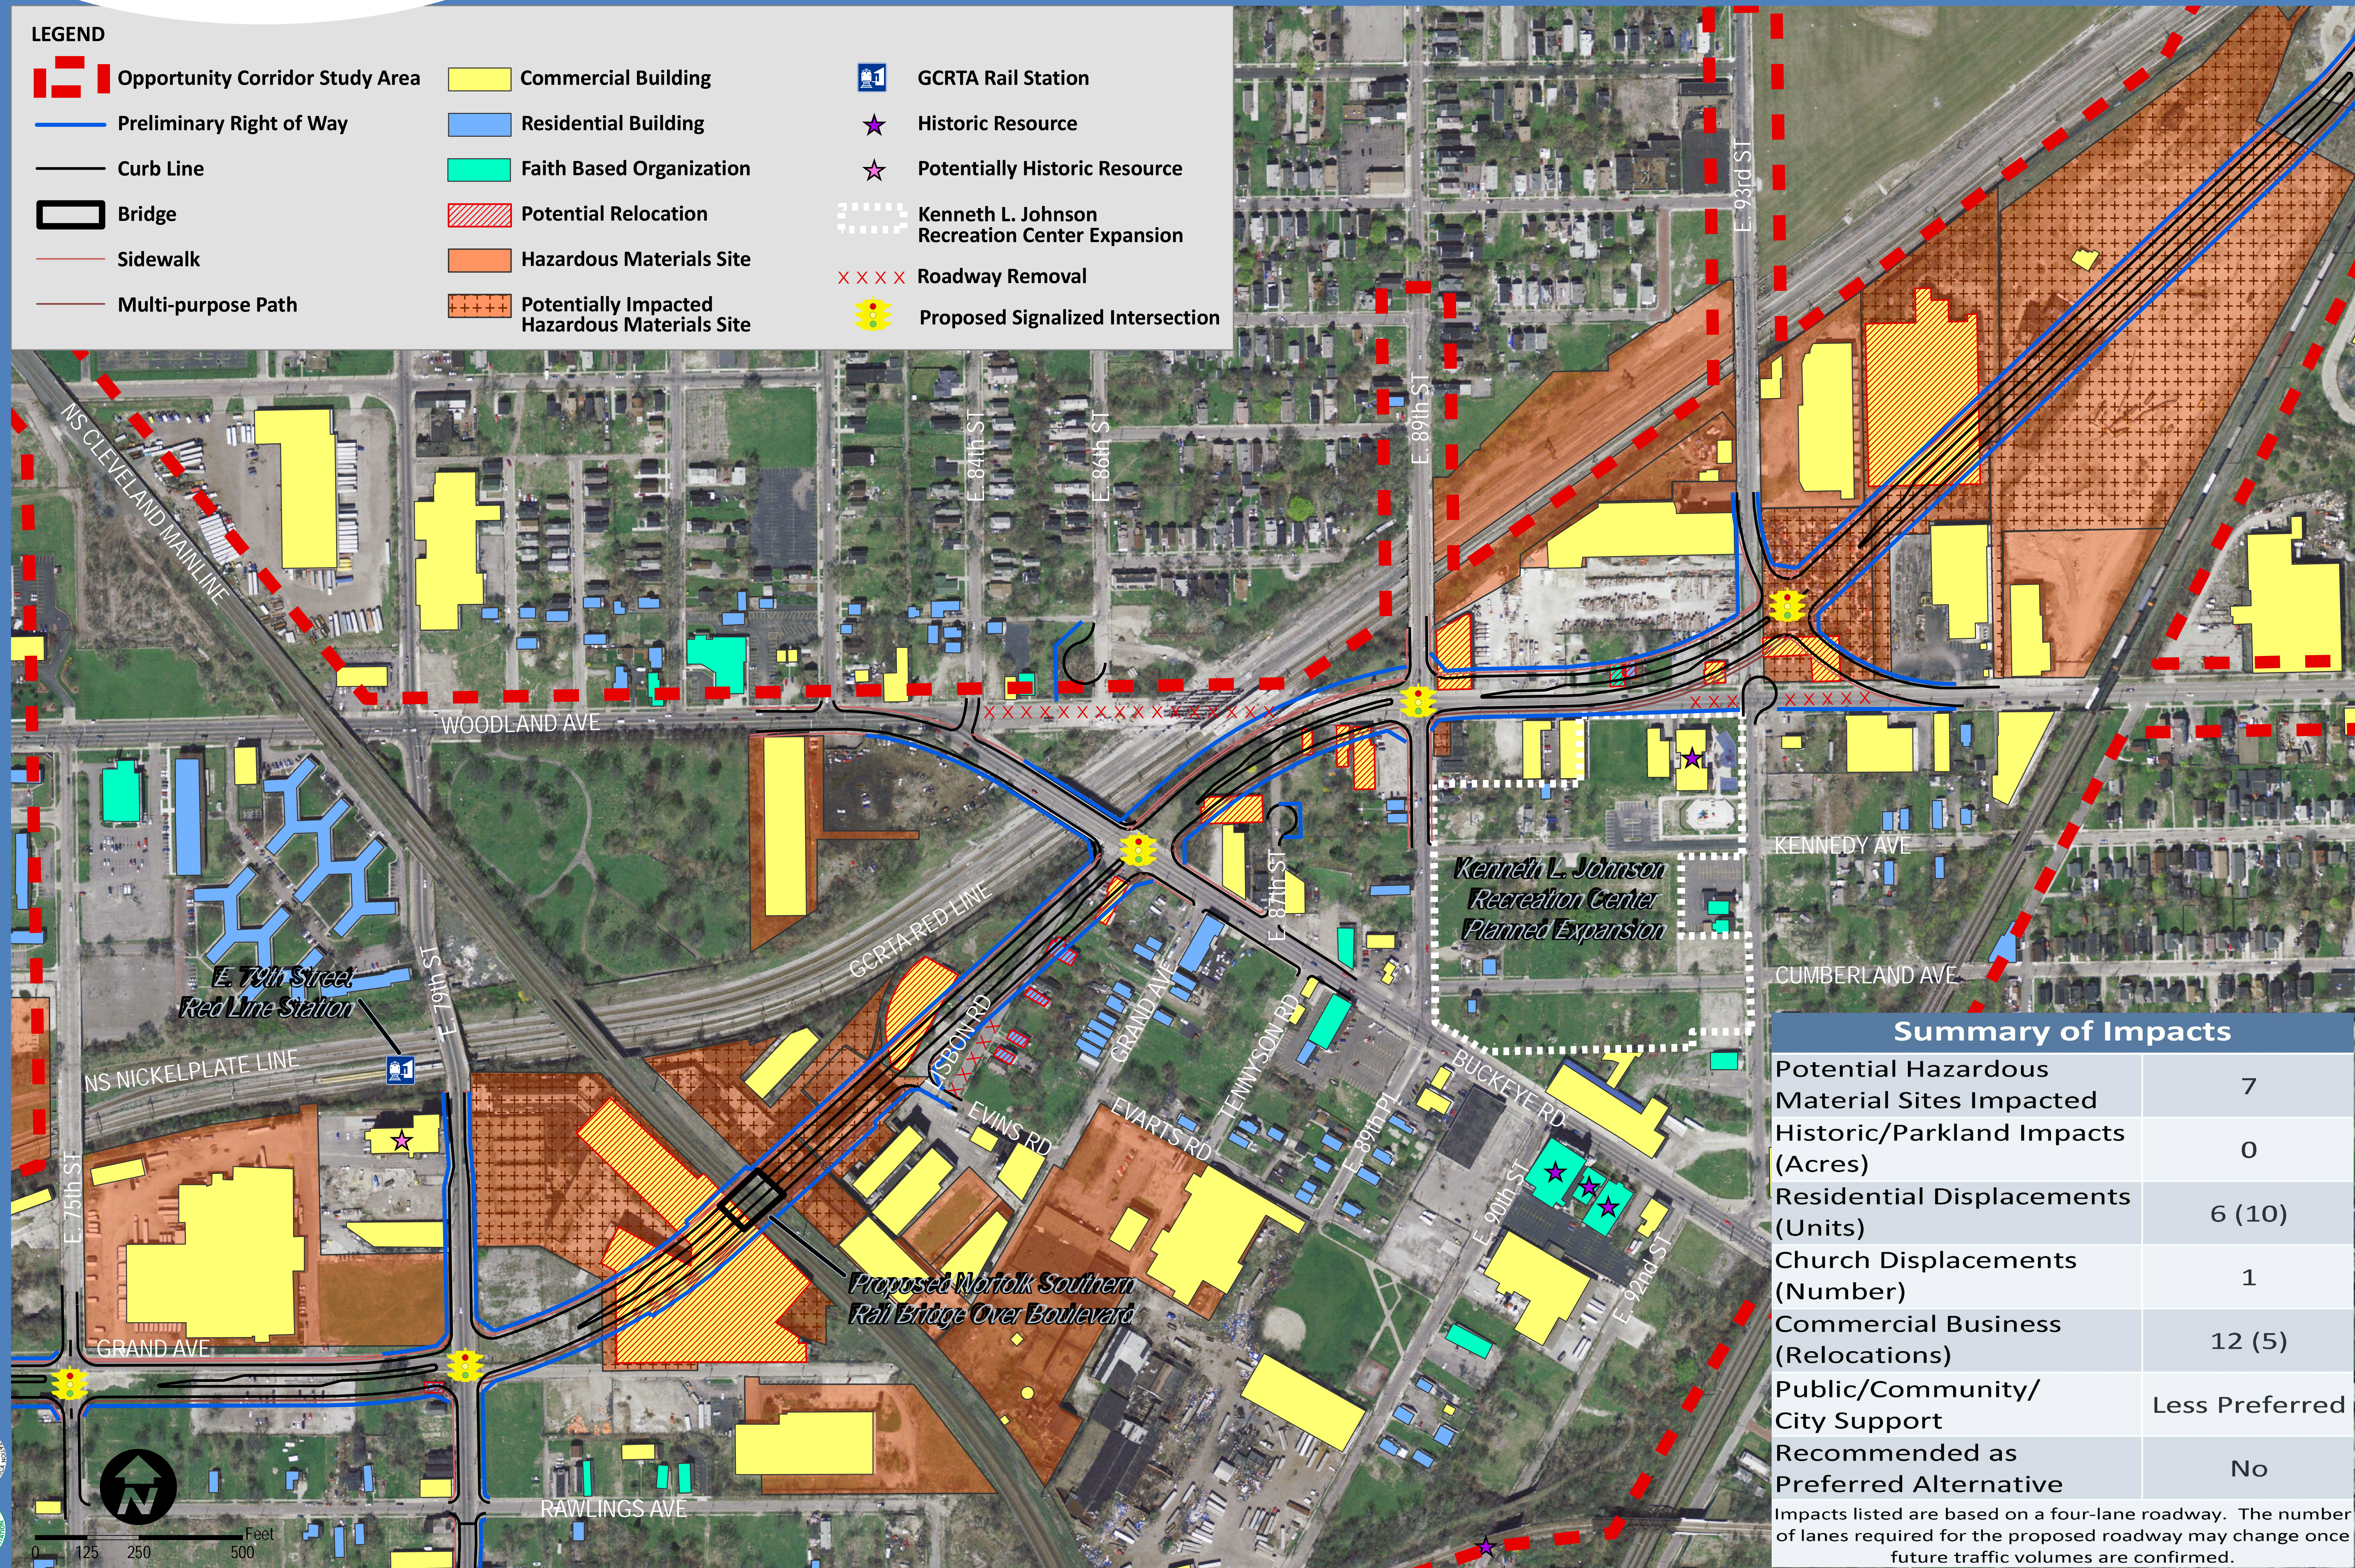

STEP 6 (July 2011)

CENTRAL SECTION ALTERNATE A

Discontinuous Woodland Avenue

LEGEND

- Opportunity Corridor Study Area
- Preliminary Right of Way
- Curb Line

Subject: RE: Opportunity Corridor Real Estate Question

Hi Matt!

Mrs. Roslyn Harrison-Bridges and her family desire to be relocated. They moved back here from Illinois about a year and a half ago and they have been making some improvements to the house. She doesn't want to continue making large improvements if there is a chance her house will be taken as part of the project. How soon will it be made clear if her house is necessary?

Thanks,

Amanda Lee, Public Information Officer

To: Dougherty, Dan
Cc: Lee, Amanda; Schiavoni, Dale
Subject: RE: Opportunity Corridor Real Estate Question

Dan,

Based on the current alignment that was presented at the public meetings, this property would not be directly since the roadway would be located a little further north (between this property and Grand Avenue). However, based on a recent coordination meeting with GCP/ODOT/City of Cleveland and Orlando Baking Company, HNTB was asked to review the possibility of shifting the roadway a little further south to facilitate expansion plans for the bakery. We are in the process of performing this review. HNTB is also in the process of performing ongoing travel demand modeling so that the number of lanes along the boulevard can be finalized. The alignment shift and the traffic modeling each create the potential to place the roadway in closer proximity to the property in question, but all said, the property still might not be directly impacted.

So to answer the question, I would say not at this time, however there is still a chance, due to ongoing refinements to the design.

When you speak to the property owner (or tenant), try to see if they are concerned about being relocated or if they desire to be relocated.

Hope this helps,

Matt

Subject Opportunity Corridor Real Estate Question

Hi Dan... Ms. Rosyln Harrison-Bridges called late yesterday and would like to know if her property at 2787 East 73rd Street will be impacted by the Opportunity Corridor project. If you could please give her a call back that would be great! Her home number is 216.431.0307 and if you can't reach her there try her cell at 216.225.9385.

Thanks,

Dale,

Attached is an exhibit showing the parcel in question highlighted in green on the east side of E59th Street. You are correct that the current alternative does not indicate this parcel being directly impacted. There may be temporary impacts due to construction activities, but no permanent right of way required. At this location, the houses on the west side of the street are acquired for construction of the quadrant roadway and a retaining wall to retain E59th Street at its current elevation. The quadrant roadway would be constructed at a lower elevation on the west side of the wall and a greenspace constructed between the wall and E 59th Street. I would imagine that this greenspace would feature some form of landscaping, likely trees. There may be either a sidewalk or multipurpose path constructed at this location as well. This is still being coordinated as we look to ensure that we are providing good pedestrian and bicycle access to the relocated RTA station at E55th Street.

Please let us know the outcome of your coordination so that we can retain the data in our records.

Thanks,

Matt

Subject Question about Opportunity Corridor

Hello:

I received a call on Friday from Bill Madansky (216.271.7540) who has some questions about Opportunity Corridor. Specifically, he wondered what the plan is for E 59th Street. His property is at 2907 E 59th Street.

I told him that someone would call on Monday and he was fine with that!

Subject Opportunity Corridor

Hello Jackie,

I have long followed the many ups and downs with the extension of I-490 and sometimes give my ideas to ODOT. Your current plans renew my hopes to bring life to Southeast Cleveland.

Since 2002 I drive weekdays every week to volunteer working at the Slovak Institute (SIL), located in the Abbey building on the campus of Benedictine High School.

Just one of my issues is that many of our SIL visitors come from the westside or staying at hotels along I-77 and giving them driving instructions is difficult. Building the road as a boulevard was a great idea because besides adding beauty it helps those living along the route and also adds potential for vacant land development. Recent housing added along Kinsman starting at E.71st and jobs at CMHA at E.84th was a step in the right direction.

Please consider this as my comment sheet your requesting,
and count me as a supporter.

Joseph J. Hornack

July 26th, 27th and 28th, 2011

The Ohio Department of Transportation (ODOT) invites your comments on the Opportunity Corridor project. Comments may be provided in the space below or on a separate sheet of paper. ODOT welcomes comments on the project at any time. However, in order for your comments to be considered prior to the next step of the project planning, ODOT requests that your written comments be submitted at this meeting or mailed in by **August 12, 2011**. Mail comments to Jackie Schafer at the ODOT, District 12 office (address provided on reverse side of questionnaire).

You may use additional pages if necessary. Your responses will be considered prior to developing the Draft Environmental Impact Statement (DEIS) for the Opportunity Corridor project. **Thank you for your input.**

In order to help us track comments received, please provide us with your contact information (Optional):

Name: TIMOTHY J. RICHARDS Date: July 28, 2011
Address: 27024 Pondsides Point City: Olmsted Twp Zip: 44138-3161

1. How did you find out about this public meeting? ☐ Newspaper ad ☐ Flyer ☐ TV/Radio
☐ Project website ☒ Other Through the ODOT new bridge project
2. Are you a member of a civic or business group (e.g., homeowners' association, non-profit group, etc.)?
☐ Yes ☒ No If so, which one? _____
3. What is your interest in the Opportunity Corridor project? ☐ Live in study area
☐ Work in study area ☐ Play in study area ☒ General interest/Concerned citizen
4. In the **West Section**, Alternate C (quadrant roadway) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?
I agree with the grade separation; however, there is a definite need to slow the I-480 traffic as it merges into a 35 mph zone. Rumble strips, blinking Caution sign, additional ODOT green sign in advance of regular distance signage.
5. In the **Central Section**, Alternate B (continuous Woodland Avenue) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?
It's good that Woodland continues uninterrupted.

1. How did you find out about this public meeting? ☐ Newspaper ad ☐ Flyer ☐ TV/Radio

☐ Project website ☒ Other Neighbor knock on my door and informed me

2. Are you a member of a civic or business group (e.g., homeowners' association, non-profit group, etc.)?

☒ Yes ☐ No If so, which one? Hill Place

3. What is your interest in the Opportunity Corridor project? ☒ Live in study area

☐ Work in study area ☐ Play in study area ☐ General interest/Concerned citizen

4. In the **West Section**, Alternate C (quadrant roadway) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

West Section would be a good area connect with east 55th free way. Very old area needs to be improve and modernized. Problem with Cleveland is no one want anything modernized or cleaned up or improved for the betterment of the city

5. In the **Central Section**, Alternate B (continuous Woodland Avenue) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

Another section were old housing exist Road improvement in this city is greatly needed not continuous patch work wheter free way, 3+4 lane road or bridge work we need improvement. That why no one want to drive through these area's now.

6. In the **East Section**, Alternate C (Widen E. 105th Street to the east) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

Do they not have a euclid corridor
stretch from downtown out euclid
improve these other area's

7. Do you have any additional comments on the Opportunity Corridor project? what they could

build a 4-~~6~~ lane road across to east 55th over to
east 55th woodland and central straight up to east 105-
from East 55th rapid station: 55th 105 woodland
55 Rapid station 55 woodland

1. How did you find out about this public meeting? ☐ Newspaper ad ☐ Flyer ☐ TV/Radio
☐ Project website ☒ Other _____

2. Are you a member of a civic or business group (e.g., homeowners' association, non-profit group, etc.)?
☒ Yes ☐ No If so, which one? Farm House Food Distributors

3. What is your interest in the Opportunity Corridor project? ☐ Live in study area
☒ Work in study area ☐ Play in study area ☐ General interest/Concerned citizen

4. In the **West Section**, Alternate C (quadrant roadway) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

5. In the **Central Section**, Alternate B (continuous Woodland Avenue) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

1) We have Semi-tractor-trailers backing into our lot off of Woodland.
They need to use the entire street when backing up (East and West lanes)
If there were to be a partition in the middle of Woodland the trucks
would not be able to back in.

2) ~~that~~ We currently use Kennedy Rd. as a rear exit for our
retail customers cars to get to E 89th. We must have access

6. In the **East Section**, Alternate C (Widen E. 105th Street to the east) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

out of our back to either Buckeye or Woodland, Ken Johnson's
Rec. Center has plans for the land behind us - I hope it includes
an exit.

- 3) During heavy rains Woodland floods in front of our business
water rises 2-3' - into our building at times - blocking road
7. Do you have any additional comments on the Opportunity Corridor project? and sidewalks.

OWN A BUSINESS

4. In the **West Section**, Alternate C (quadrant roadway) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

It's important that businesses such as Orlando Bakery are accommodated and remain in the area to continue to provide jobs and serve as a hub in the area along with Miceli's.

5. In the **Central Section**, Alternate B (continuous Woodland Avenue) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

Miceli's thanks you for working with us to move the corridor as far northwest as possible to avoid our expansion area and to provide us with truck access and truck staging to our new Milk Intake Center. This will allow us to keep our jobs in Cleveland where we wish to remain and grow.

6. In the **East Section**, Alternate C (Widen E. 105th Street to the east) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

-No-

7. Do you have any additional comments on the Opportunity Corridor project? _____

*Micelli's supports the Opportunity Corridor
as it will add to the economic vitality
and resurgence of the area.*

APPLICATION TO BE CONSIDERED A SECTION 106 CONSULTING PARTY FOR HISTORIC PROPERTY IMPACTS

-Please Print-

Organization:	
Name:	
Title:	
Address:	
Phone:	
E-mail:	

Section 106 of the National Historic Preservation Act requires Federal agencies to consider the effects of their actions on historic properties.

The Section 106 process also encourages the incorporation of historic preservation values into project planning through consultation among parties with an interest in the effects of the undertaking on historic properties. Because consultation is a dynamic good-faith process of discussing options, considering multiple views, and seeking agreement among a variety of parties, your regular attendance, active participation, and constructive comments will be expected throughout the process.

Please summarize your interest in historic properties as related to this project:

Please E-mail, mail, or fax to:

Be Part of the Solution...

Opportunity Corridor Public Meetings

Four Public Meetings will be held from
July 26th through July 28th, 2011

Meetings #1 and #2

When: Tuesday, July 26, 2011
2:00 pm to 4:00 pm and
6:00 pm to 8:00 pm
Where: Calvary Hill Baptist Church
2171 E. 103rd Street

Meeting #3

When: Wednesday, July 27, 2011
6:00 pm to 8:00 pm
Where: Elizabeth Baptist Church
(former St. Hyacinth Church)
6114 Francis Avenue

Meeting #4

When: Thursday, July 28, 2011
6:00 pm to 8:00 pm
Where: Mt. Sinai Baptist Church
7510 Woodland Avenue

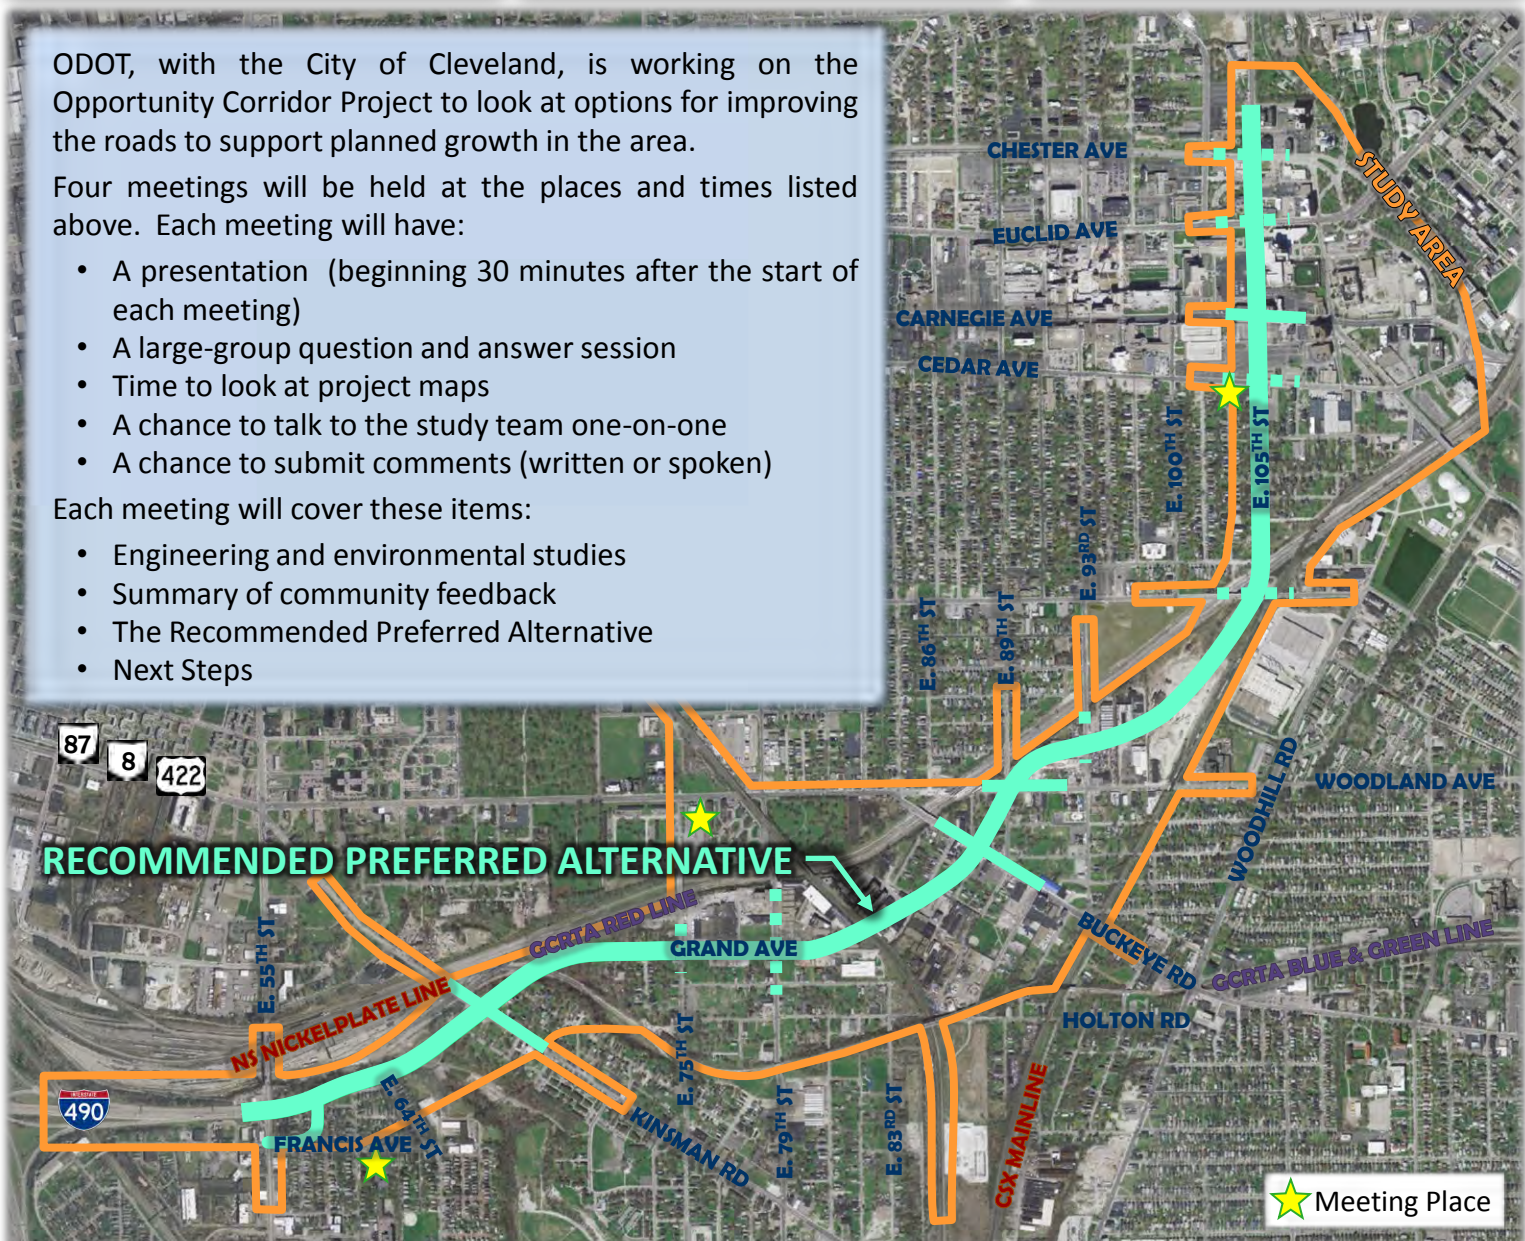

ODOT, with the City of Cleveland, is working on the Opportunity Corridor Project to look at options for improving the roads to support planned growth in the area.

Four meetings will be held at the places and times listed above. Each meeting will have:

- A presentation (beginning 30 minutes after the start of each meeting)
- A large-group question and answer session
- Time to look at project maps
- A chance to talk to the study team one-on-one
- A chance to submit comments (written or spoken)

Each meeting will cover these items:

- Engineering and environmental studies
- Summary of community feedback
- The Recommended Preferred Alternative
- Next Steps

For more information, please contact Jackie Schafer at (216) 584-2006 or Jaclyn.Schafer@dot.state.oh.us

Opportunity Corridor Study Team Seeks Public Input

Four public meetings to be held beginning Tuesday

CLEVELAND – The Ohio Department of Transportation (ODOT) and the City of Cleveland continue to review options for connecting Interstate 490 to economic development activity in the area east of East 55th Street through the Opportunity Corridor project. Four public meetings will be held this week to present engineering and environmental studies, a summary of community feedback, the recommended preferred alternatives and the next steps. Each meeting will present the same material. The meetings will also provide opportunities for the public to speak with representatives from ODOT, the City of Cleveland and the study team from HNTB Ohio, Inc. All comments received will be given careful consideration.

What: Opportunity Corridor Public Meetings

Who: ODOT, the City of Cleveland and HNTB study team

When/Where: July 26, 27, 28. Please see complete schedule below:

Meeting #1

When: Tuesday, July 26, 2011
2 p.m. to 4 p.m.
Where: Calvary Hill Baptist Church
2171 E. 103rd Street

Meeting #3

When: Wednesday, July 27, 2011
6 p.m. to 8 p.m.
Where: Elizabeth Baptist Church
(former St. Hyacinth Church)
6114 Francis Avenue

Meeting #2

When: Tuesday, July 26, 2011
6 p.m. to 8 p.m.
Where: Calvary Hill Baptist Church
2171 E. 103rd Street

Meeting #4

When: Thursday, July 28, 2011
6 p.m. to 8 p.m.
Where: Mt. Sinai Baptist Church
7510 Woodland Avenue

WAR

Army engineer built bridges, joined battle

It's quietly discovered the multiple roles that engineers played as they joined the front-line battle. "A lot of them were in the front line, and they were in the front line," he said. "We helped them build the bridges, all that stuff."

Whether they needed you or not, you were there. "I was there where you were," he said.

Building bridges was a major task, but sometimes the job had to be done at night. "We had to be there at night, without lights, so we'd dig out the section of the road and lay down the bridge," he said. "We had to be there at night, and we had to be there at night."

Engineers said their duties could range from building bridges to laying out the roads as they lay in their positions, searching for their way out.

cleveland.com/news

In a video interview, Michael Richardson, an Army engineer, described his role in building bridges and fighting in the front line during World War II.

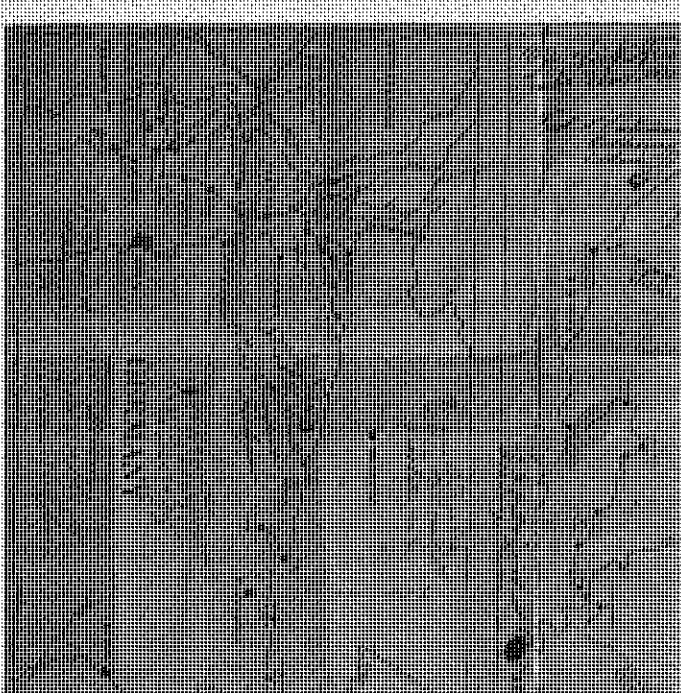

When you were there, the night was long, but you were there. "I was there where you were," he said.

Whether they needed you or not, you were there. "I was there where you were," he said.

Engineers said their duties could range from building bridges to laying out the roads as they lay in their positions, searching for their way out.

Michael Richardson, an Army engineer, describes his role in building bridges and fighting in the front line during World War II.

Michael Richardson still has a map autographed by fellow members of his unit, showing their progress across France. Richardson said Germany started the war.

Be Part of the Solution...

OPPORTUNITY
Four Public Meetings will be held from
July 26th through July 28th, 2011

Meetings #1 and #2

When: Tuesday, July 26, 2011
2:00 pm to 4:00 pm and
6:00 pm to 8:00 pm
Where: Calvary Hill Baptist Church
2171 E. 103rd Street

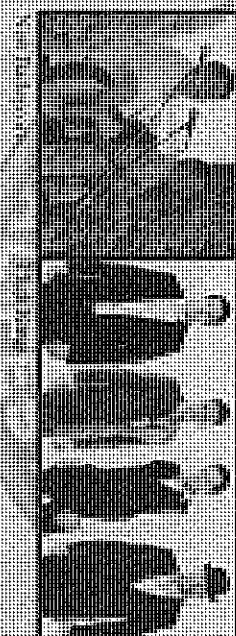

Meeting #3

When: Wednesday, July 27, 2011
6:00 pm to 8:00 pm
Where: Elizabeth Baptist Church
(Former St. Mycolom Church)
6114 Francis Avenue

Meeting #4

When: Thursday, July 28, 2011
6:00 pm to 8:00 pm
Where: Mt. Sinai Baptist Church
7510 Woodland Avenue

For more information, please contact Jackie Mathews at (216) 554-2215 or jmathews@cityofcleveland.com.
More project information can be found at www.cityofcleveland.com/corridor.

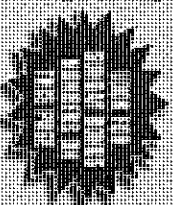

Join us for a special meeting, discussion, and workshop.
We have information on all of our projects.
or call us at (216) 554-2215

5	28	38	59	75

Play It Today.

We're Giving Away 500 A Week!

That's right! Every day, 500 of our lucky winners will win a chance to win a large wooden desk or cabinet. To be eligible, you must be a resident of Cleveland, Ohio, and you must be at least 18 years old. To enter, simply visit our website at www.cityofcleveland.com/corridor and fill out the entry form. The drawing will be held every day at 12:00 PM. Winners will be selected by random drawing. The grand prize is a large wooden desk or cabinet, valued at \$500. There is no cash prize. The odds of winning are 1 in 500. Good luck!

James D. Ireland *Early Stage Partners, LP* **(Co-Chair)**
Frank Jackson Mayor, City of Cleveland
Vickie Johnson Fairfax Renaissance Development Corporation
Marie Kittredge Slavic Village Development Corporation
Paul Lewis Fairfax Resident
Joseph Lopez New Era Builders
Robert Lucas Kinsman Resident
Mamie Mitchel City of Cleveland Council
John Anthony Orlando Orlando Baking Company
Myron Pakush ODOT District 12
Joseph A. Roman Greater Cleveland Partnership
Chris Ronayne University Circle, Inc.
Timothy L. Tramble Burten Bell Carr Development Corporation

Shared Vision Statement

(Working Draft)

The Opportunity Corridor will act as a catalyst for economic development in the City of Cleveland, create vital connections to the greater region, and support revitalization efforts in the surrounding established neighborhoods. The well-designed, multi-modal public infrastructure will leverage private investment and infuse the corridor-area with new jobs for existing and future residents. The success of the Opportunity Corridor will result from an inclusive planning process that involves the community and results in development initiatives that promote sustainable land uses and healthy communities.

Overview

Community and Development Planning

- Planning workshops with CDCs
- Meetings with residents and businesses
- Recommendations on future land use
- Economic impact study

Agenda

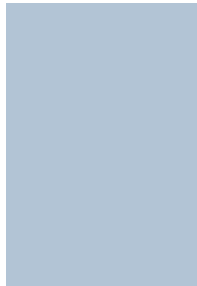

Transportation Planning

- Previous Work - Steps 1-5
- Step 6 Alternates
- Recommended Preferred Alternative
- Next Steps
- Schedule
- Property Purchase Process

OC Project Overview

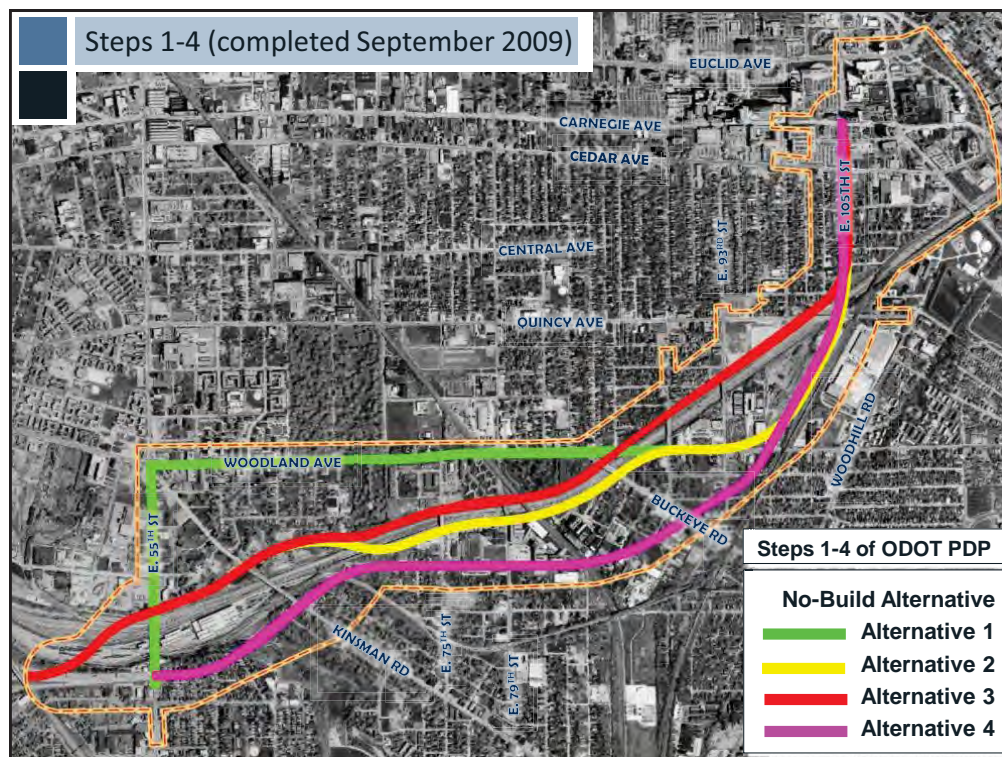

- Purpose Statement

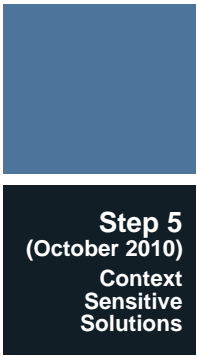

The purpose is to improve the transportation infrastructure, access and mobility within a historically underserved, economically depressed area within the City of Cleveland

- Need Elements

- Improve system linkage
- Improve mobility
- Support planned economic development

Summary of CSS activities and feedback on priorities

- Roadway elements
- Roadside elements
- Community elements
- Vegetative elements
- Landform elements
- Corridor theme

Step 5
 (October 2010)
 Context
 Sensitive
 Solutions

Some
 elements
 will require
 additional
 funding
 sources

Roadway Elements:

- Enhanced bridges
- Ornamental roadway lighting
- Ornamental railings and fencing

Roadside Elements:

- Pedestrian amenities
- Ornamental pedestrian and access lighting
- Bike facilities

Step 5
 (October 2010)
 Context
 Sensitive
 Solutions

Some
 elements
 will require
 additional
 funding
 sources

Community Elements:

- Plaza/Community areas
- Stormwater runoff sustainable management

Vegetation Elements:

- Street trees
- Green/sustainable street program
- Planted roadway median

Step 5
(October 2010)
Context
Sensitive
Solutions

Some
elements
will require
additional
funding
sources

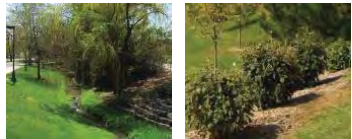

Landform Elements:

- Naturalistic approach to grading

Corridor design character and Theme:

- Community Inspired Theme

Step 6 (July 2011)

**Alternatives and
Recommendations**

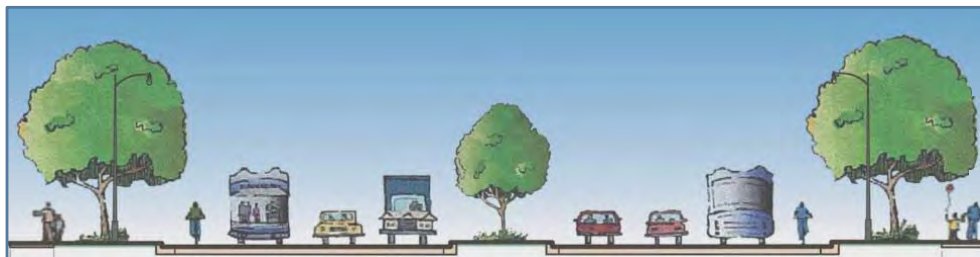

**Step 6
Activities
(July 2011)**

- Revised Roadway Cross Sections
 - Community Input
 - Traffic Analysis
- Further developed alignments
- Evaluated alternates
- Established a Recommended Preferred Alternative

Step 5 Cross Sections (October 2010)

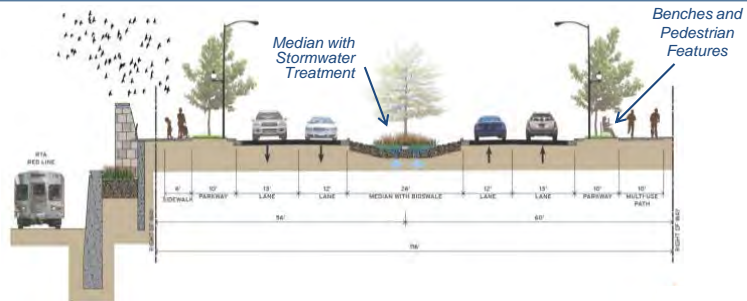

- Local street
- 35 mph speed limit
- Sidewalk
- Multipurpose path
- Landscaping
- Lighting

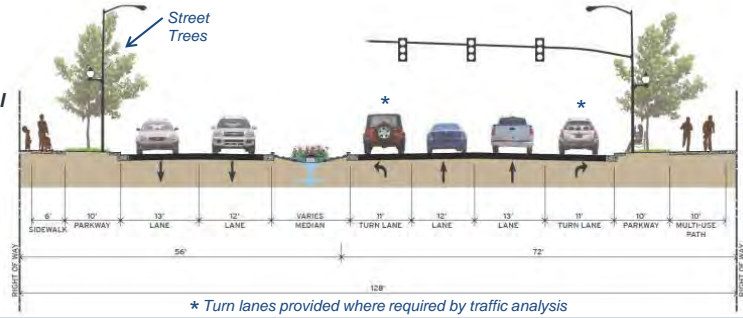

Step 6 Cross Sections (July 2011)

**West & Central Sections:
Typical
Cross Section
Showing RTA**

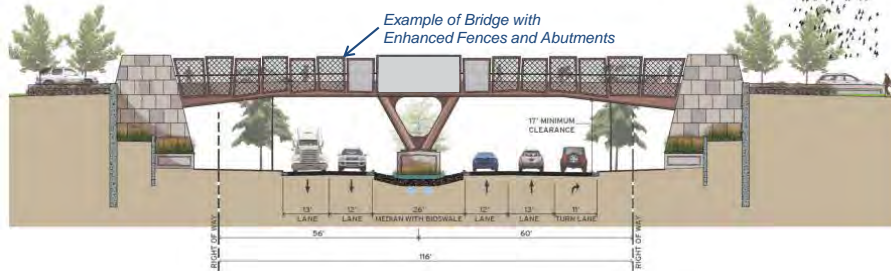

**West & Central Sections:
Typical
Signalized
Intersection
Cross Section**

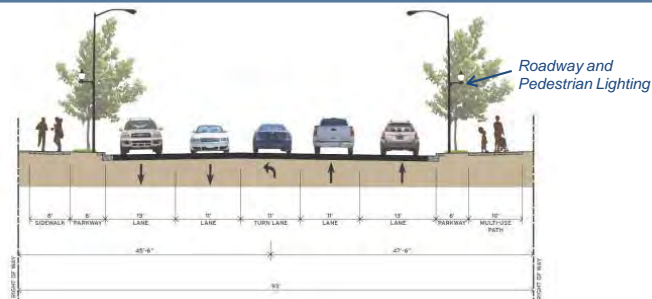

Note: The number of lanes required for the proposed roadway may change once future traffic volumes are confirmed.

Step 6 Cross Sections (July 2011)

West and Central Sections: Typical Bridge Cross Section

**East Section:
Typical E. 105th
Cross Section**

Note: The number of lanes required for the proposed roadway may change once future traffic volumes are confirmed.

WEST SECTION ALTERNATES

Alternate A

At Grade Intersection

Alternate B

Grade Separated

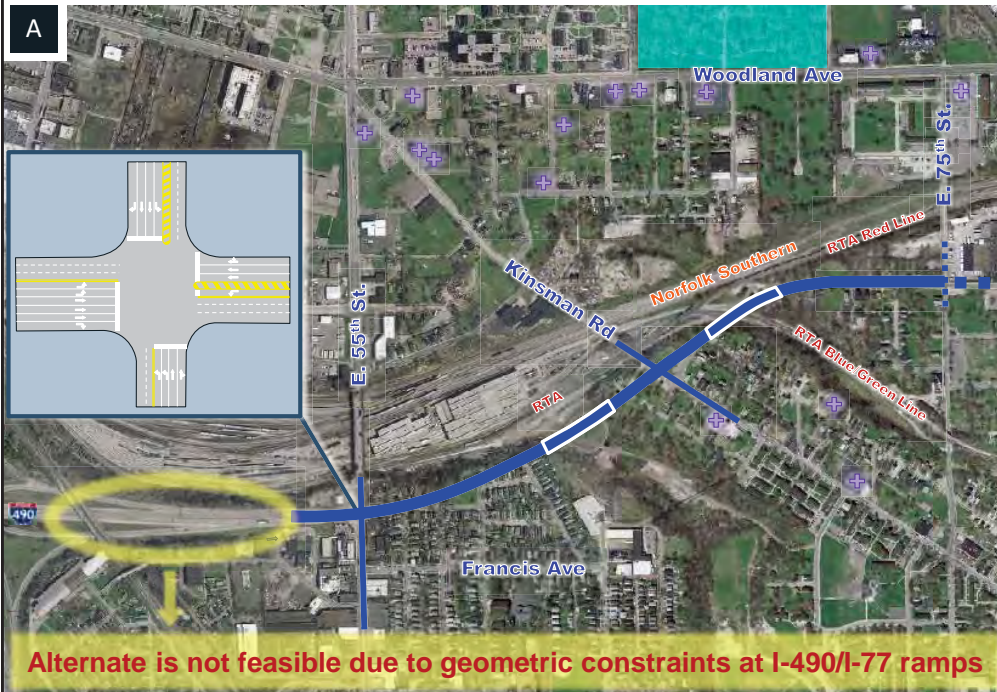

Alternate C

Quadrant Roadway

West Section – E.55th Street to E.75th Street – At Grade Alternate

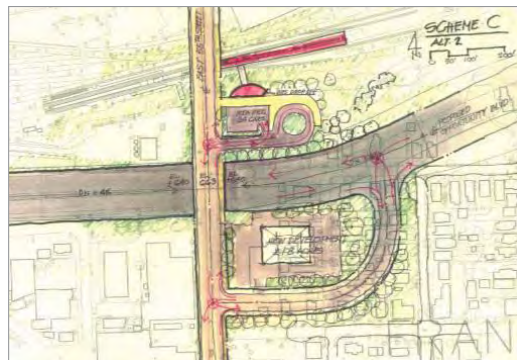

A

West Section Alternate C – Quadrant Roadway

Alternate C RTA Conceptual Schemes

Quadrant Roadway Example & Video

West Alternate Evaluation

	Alternate C Quadrant Roadway
Potential Hazardous Material Sites Impacted	3
Historic/Parkland Impacts (Acres)	0
Residential Displacements (Units)	49 (76)
Church Displacements (Number)	0
Commercial Business (Relocations)	4 (3)
Public/Community/City Support	Preferred
Recommended as Preferred Alternative	Yes

Impacts listed are based on a 4-lane roadway.
The number of lanes required for the proposed roadway may change once
future traffic volumes are confirmed.

Eastern Alignment

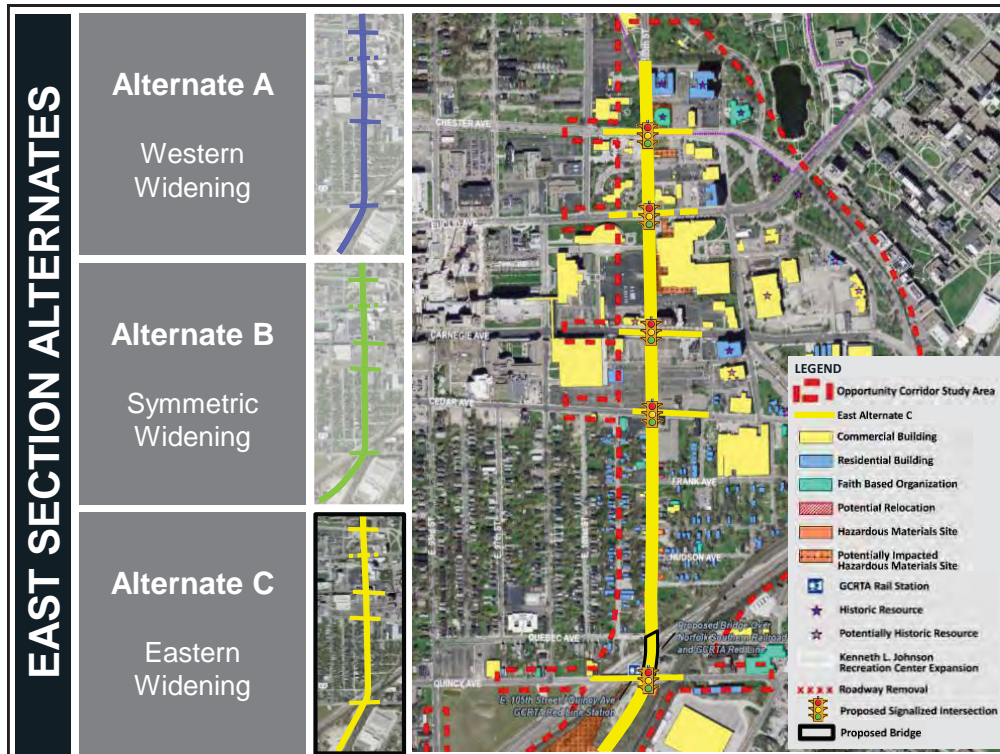

Central Section Alternate B – Continuous Woodland Avenue

   			
Central Alternates Evaluation		Alternate A Discontinuous Woodland	Alternate B Continuous Woodland
	Potential Hazardous Material Sites Impacted	7	12
	Historic/Parkland Impacts (Acres)	0	0
	Residential Displacements (Units)	6 (10)	11 (11)
	Church Displacements (Number)	1	1
	Commercial Business (Relocations)	12 (5)	16 (7)
	Public/Community/City Support	Less Preferred	Preferred
	Recommended as Preferred Alternative	No	Yes

Impacts listed are based on a 4-lane roadway.
 The number of lanes required for the proposed roadway may change once future traffic volumes are confirmed.

East Alternate Evaluation			Alternate C Eastern Widening
		Potential Hazardous Material Sites Impacted	3
		Historic/Parkland Impacts (Acres)	1 (possible)
		Residential Displacements (Units)	4 (8)
		Church Displacements (Number)	0
		Commercial Business (Relocations)	3 (3)
		Public /Community/City Support	Preferred
		Recommended as preferred alternative	Yes

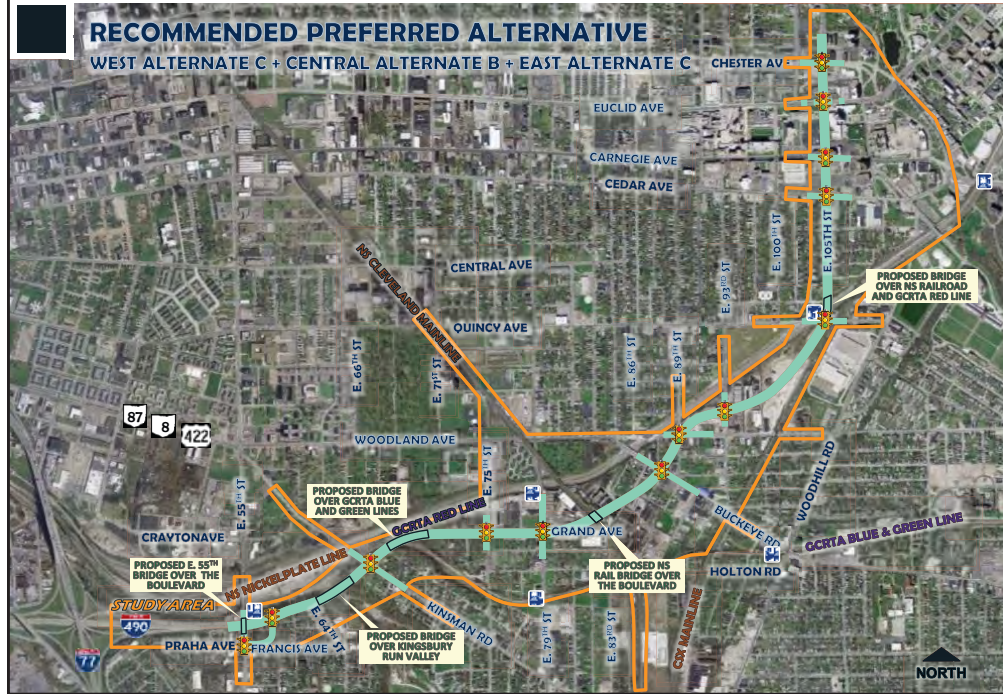

Impacts listed are based on a 4-lane roadway.

The number of lanes required for the proposed roadway may change once future traffic volumes are confirmed.

CLEVELAND OPPORTUNITY CORRIDOR
A joint investment by TRANSPORTATION

STATE OF OHIO
DEPARTMENT OF TRANSPORTATION

U.S. DEPARTMENT OF TRANSPORTATION

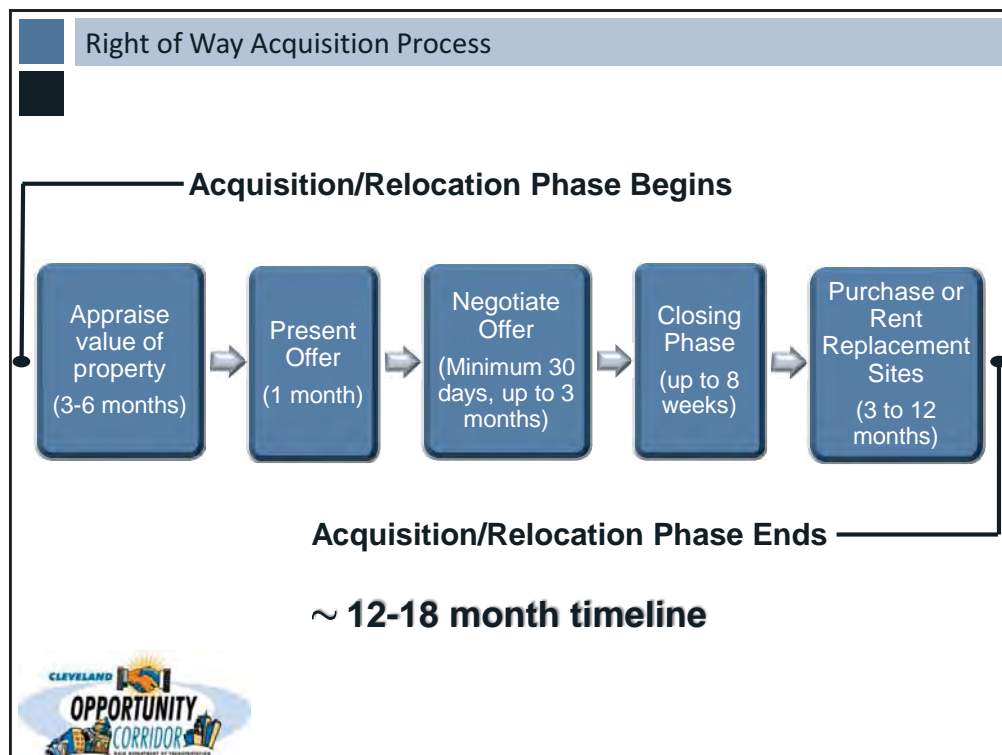

Right of Way Acquisition

Right of Way Acquisition (Purchasing of land required for roadway)

- Approval of Recommended Preferred Alternative (approval of R.O.D)
- Identification of funding
- Start in 2014 in the East Section
- Purchase of land
- Purchase of buildings (residential and commercial)
- Relocate occupants

Residential Owner Occupied Structure

Relocation Benefits

- Must be living in home at the time offer is presented to qualify for program benefits (primary place of residence)
- Price Differential
 - Replacement Housing Cost
 - Incidental Expenses (i.e. closing costs, credit reports, application fees, etc...)
 - Interest Differential Cost
- You are entitled to moving expense reimbursement

EXAMPLE

Appraised Value = \$ 27,000

Replacement Home Value = \$ 40,000

Price Differential +

Payment = \$ 13,000

Total Offer = \$ 40,000

(+ closing costs + moving expenses)

If you purchase a home for \$30,000, you will only receive \$3,000 of the differential payment.

If you purchase a home for \$25,000, you will receive no differential payment, but you still receive the full \$27,000 appraisal value.

Residential Tenant Occupied Benefits

Relocation Benefits

- Must be living in home at the time offer is presented to owner to qualify for program benefits
- Benefits based on number of days you occupied the home: maximum benefit received after 90 days of occupancy
- May receive a rental supplement based on period of occupancy. May be used to purchase home – for down payment and/or closing costs
- At a minimum, you are entitled to the same moving expense reimbursement benefit as the owner occupant

Commercial Businesses

Relocation Benefits

- Reimburse for Actual Move Costs (Personal Property)
- Search Expenses (up to \$2,500.00)
- Re-establishment Expenses (up to \$10,000.00)
- Economic Loss (< 365 days)
- Loss of Good Will
- In Lieu of Payment (up to \$20,000.00)

Meeting Stations

- West Section Alternate
- Central Section Alternates
- East Section Alternate
- Recommended Preferred Alternative
- Right of Way Acquisition Process
- Public Comments
 - Apply to be a Consulting Party
 - Give verbal comments
 - Turn in comment form

Question & Answer

Thank You!

July 26, 2011 – Calvary Hill Afternoon Meeting

- **Sign-In Sheets**
- **Returned Comment Forms**

Opportunity Corridor Public Information Meetings

July 26th, 27th and 28th, 2011

The Ohio Department of Transportation (ODOT) invites your comments on the Opportunity Corridor project. Comments may be provided in the space below or on a separate sheet of paper. ODOT welcomes comments on the project at any time. However, in order for your comments to be considered prior to the next step of the project planning, ODOT requests that your written comments be submitted at this meeting or mailed in by **August 12, 2011**. Mail comments to Jackie Schafer at the ODOT, District 12 office (address provided on reverse side of questionnaire).

You may use additional pages if necessary. Your responses will be considered prior to developing the Draft Environmental Impact Statement (DEIS) for the Opportunity Corridor project. **Thank you for your input.**

In order to help us track comments received, please provide us with your contact information (Optional):

Name: Jerry SAA Date: 7-26-11
Address: 2249 E 105th City: Cleveland Zip: 44106

1. How did you find out about this public meeting? ☐ Newspaper ad ☒ Flyer ☐ TV/Radio
☐ Project website ☐ Other _____
2. Are you a member of a civic or business group (e.g., homeowners' association, non-profit group, etc.)?
☒ Yes ☐ No If so, which one? _____
3. What is your interest in the Opportunity Corridor project? ☐ Live in study area
☒ Work in study area ☐ Play in study area ☐ General interest/Concerned citizen
4. In the **West Section**, Alternate C (quadrant roadway) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

5. In the **Central Section**, Alternate B (continuous Woodland Avenue) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

6. In the **East Section**, Alternate C (Widen E. 105th Street to the east) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

Leave it as it is and improve
the side walks.

7. Do you have any additional comments on the Opportunity Corridor project? _____

*Postage
Required*

Name: _____ Date: 7.26.11
Address: _____ City: Clev. Zip: 44113

1. How did you find out about this public meeting? ☐ Newspaper ad ☐ Flyer ☐ TV/Radio
☐ Project website ☒ Other Cuyahoga county planning commission
weblog

2. Are you a member of a civic or business group (e.g., homeowners' association, non-profit group, etc.)?
☐ Yes ☒ No If so, which one? _____

3. What is your interest in the Opportunity Corridor project? ☐ Live in study area
☒ Work in study area ☐ Play in study area ☐ General interest/Concerned citizen

4. In the **West Section**, Alternate C (quadrant roadway) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

- ESS quadrant roadway inefficient to handle
volume? looks to be not wide enough an illustration.
insufficient
- like depressed 490; eliminates 490 halt @ ESS

5. In the **Central Section**, Alternate B (continuous Woodland Avenue) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

6. In the **East Section**, Alternate C (Widen E. 105th Street to the east) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

7. Do you have any additional comments on the Opportunity Corridor project?

bike lanes should remain on the roadway w/ appropriate
marking/signage. Moving bikes to pedestrian path
reduces this efficient mode of transportation to recreation
& risks bike/pedestrian collisions.

In order to help us track comments received, please provide us with your contact information (Optional):

Name: CHRIS BONGARD Date: 7/26/2011
Address: 10831 MAGNOLIA DR City: CLEVE Zip: 44102

1. How did you find out about this public meeting? ☐ Newspaper ad ☐ Flyer ☐ TV/Radio
☐ Project website ☐ Other Correspondence w/ HNTB
2. Are you a member of a civic or business group (e.g., homeowners' association, non-profit group, etc.)?
☒ Yes ☐ No If so, which one? University Circle Inc.
3. What is your interest in the Opportunity Corridor project? ☐ Live in study area
☒ Work in study area ☐ Play in study area ☒ General interest/Concerned citizen
4. In the **West Section**, Alternate C (quadrant roadway) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?
We need to be very careful of the conditions we leave around this unique roadway configuration, in particular, as it pertains to access to the E. 55th St. rapid station. Sidewalk + bridge treatments must be executed well (not base ODOT standard) or this station will become even more isolated than it is already.
5. In the **Central Section**, Alternate B (continuous Woodland Avenue) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?
Across all sections, minimize roadway width to the extent possible. Do we need 13' wide lanes? Will the sections at intersections create unreasonable crossing distances for pedestrians? Can we install 10' multi-use paths on both sides of the street? Also, we should be careful to accommodate planned or future RTA service

6. In the **East Section**, Alternate C (Widen E. 105th Street to the east) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

Why to the east? Will this need to shift back to the center or west once north of Cedar? Carnegie?

7. Do you have any additional comments on the Opportunity Corridor project?

Happy to see emphasis on streetscape elements (lighting) + green infrastructure in the sample sections. Zoning + land use questions are very important now + moving forward. Think about some more progressive codes, in addition to basic zoning classes.

Opportunity Corridor Public Information Meetings

July 26th, 27th and 28th, 2011

The Ohio Department of Transportation (ODOT) invites your comments on the Opportunity Corridor project. Comments may be provided in the space below or on a separate sheet of paper. ODOT welcomes comments on the project at any time. However, in order for your comments to be considered prior to the next step of the project planning, ODOT requests that your written comments be submitted at this meeting or mailed in by **August 12, 2011**. Mail comments to Jackie Schafer at the ODOT, District 12 office (address provided on reverse side of questionnaire).

You may use additional pages if necessary. Your responses will be considered prior to developing the Draft Environmental Impact Statement (DEIS) for the Opportunity Corridor project. **Thank you for your input.**

In order to help us track comments received, please provide us with your contact information (Optional):

Name: MIKE SCHIRPA - GCRTA Date: 7-26-11

Address: _____ City: _____ Zip: _____

1. How did you find out about this public meeting? ☐ Newspaper ad ☒ Flyer ☐ TV/Radio
☐ Project website ☐ Other _____

2. Are you a member of a civic or business group (e.g., homeowners' association, non-profit group, etc.)?
☒ Yes ☐ No If so, which one? _____

3. What is your interest in the Opportunity Corridor project? ☐ Live in study area
☐ Work in study area ☐ Play in study area ☒ General interest/Concerned citizen

4. In the **West Section**, Alternate C (quadrant roadway) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

WITH SMALLER ROADWAY SECTION
THE ALTERNATE A MAKE MUCH MORE
SENSE. FEWER DISPLACEMENTS.

5. In the **Central Section**, Alternate B (continuous Woodland Avenue) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

AGREE WITH SELECTION OF B

6. In the **East Section**, Alternate C (Widen E. 105th Street to the east) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

AGREE WITH THE SELECTION OF C

7. Do you have any additional comments on the Opportunity Corridor project?

- THE PROPOSED TYPICAL SECTION SHOULD BE DESIGNED FOR EXPANSION TO 6 LANE SECTION IN THE FUTURE.

• PLEASE INCLUDE BIKE LANES IN BOTH DIRECTIONS IN ROADWAY SECTION.

Name: Alma Jones Date: 7/26/11
Address: 12500 Shaker Blvd. #306 City: Cleveland Zip: 44120

1. How did you find out about this public meeting? ☐ Newspaper ad ☒ Flyer ☐ TV/Radio
☐ Project website ☐ Other _____
2. Are you a member of a civic or business group (e.g., homeowners' association, non-profit group, etc.)?
☐ Yes ☒ No If so, which one? _____
3. What is your interest in the Opportunity Corridor project? ☐ Live in study area
☐ Work in study area ☐ Play in study area ☒ General interest/Concerned citizen
4. In the **West Section**, Alternate C (quadrant roadway) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?
I feel that being a wise choice; that is a very dangerous intersection.
Also, it might free up the long line starting at Woodland Ave. & E. 55th to
get on the highway.
5. In the **Central Section**, Alternate B (continuous Woodland Avenue) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?
I hope the re-paving of Woodland Ave. that is included in the target area
will be done

6. In the **East Section**, Alternate C (Widen E. 105th Street to the east) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

A excellent decision; this will greatly improve the connection route to all points in the target areas ~~and~~ in the quadrant areas.

7. Do you have any additional comments on the Opportunity Corridor project?

I am truly looking forward to the project starting and making the target areas for construction and improvement one of our cities great historic movement!

4. In the **West Section**, Alternate C (quadrant roadway) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?
I think the decisions made for this section are great.
5. In the **Central Section**, Alternate B (continuous Woodland Avenue) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?
The decisions for this section is great as well.

6. In the **East Section**, Alternate C (Widen E. 105th Street to the east) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

My concern is my street has lots of empty fields and abandoned houses. Since you all are not including it in the project, is there any plans to revitalize the street, because it's nonsense to have a nice street but everything else is not ~~as~~ nice.

7. Do you have any additional comments on the Opportunity Corridor project? Will the residents of the affected neighborhoods have employment opportunities with this project.

4. In the **West Section**, Alternate C (quadrant roadway) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

5. In the **Central Section**, Alternate B (continuous Woodland Avenue) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

6. In the **East Section**, Alternate C (Widen E. 105th Street to the east) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

My concern is the House Appraisal and employment for the citizens who will be out of a job. Will we as homeowners get the price our house is worth or will we be offer a price you think the house is worth.

7. Do you have any additional comments on the Opportunity Corridor project? I want the people needs to be met. Will this project affect the church. Will it be too noisy, cars, Trucks ect... when the Freeway is build.

4. In the **West Section**, Alternate C (quadrant roadway) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?
Art landmark to define location; and inclusive
business access so as to connect my neighborhood
to other areas.
5. In the **Central Section**, Alternate B (continuous Woodland Avenue) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?
Public Art

6. In the **East Section**, Alternate C (Widen E. 105th Street to the east) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

More Public Art...

7. Do you have any additional comments on the Opportunity Corridor project?

It is very hard to access connections to other neighborhoods
safely via bicycle; having bicycle is very important
to my community... and of course more art!
Thank you for this project! ☺

4. In the **West Section**, Alternate C (quadrant roadway) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

The proposed loop Road helps those exiting from 490 to the opportunity Corridor to East 55th But today a large number of vehicles go from East 55th (South Bound) to 490. Your diagram does not show this important maneuver.

5. In the **Central Section**, Alternate B (continuous Woodland Avenue) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

REGARDING BRUDER (WOODLAND @ E. 89th ST) THIS IS AN IMPORTANT FACILITY THAT SERVES THE CONSTRUCTION INDUSTRY. THE PLAN CALLS FOR REMOVAL OF THEIR BUILDING BUT ONLY A CORNER OF THE SITE. I'D RECOMMEND THAT THEY BE ENCOURAGED TO STAY ON THEIR SITE WITH A NEW LOCATION FOR THEIR BUILD'G TO BE REPLACED. WE SHOULD WANT TO PRESERVE A VIABLE EXISTING BUSINESS.

6. In the **East Section**, Alternate C (Widen E. 105th Street to the east) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

7. Do you have any additional comments on the Opportunity Corridor project? _____

Opportunity Corridor Public Information Meetings

July 26th, 27th and 28th, 2011

The Ohio Department of Transportation (ODOT) invites your comments on the Opportunity Corridor project. Comments may be provided in the space below or on a separate sheet of paper. ODOT welcomes comments on the project at any time. However, in order for your comments to be considered prior to the next step of the project planning, ODOT requests that your written comments be submitted at this meeting or mailed in by **August 12, 2011**. Mail comments to Jackie Schafer at the ODOT, District 12 office (address provided on reverse side of questionnaire).

You may use additional pages if necessary. Your responses will be considered prior to developing the Draft Environmental Impact Statement (DEIS) for the Opportunity Corridor project. **Thank you for your input.**

In order to help us track comments received, please provide us with your contact information (Optional):

Name: Harold E. Spinks Date: July 28, 2011

Address: 1990 Ford Drive 710 City: Cleveland Zip: 44106

1. How did you find out about this public meeting? ☐ Newspaper ad ☒ Flyer ☐ TV/Radio
☐ Project website ☐ Other _____

2. Are you a member of a civic or business group (e.g., homeowners' association, non-profit group, etc.)?
☐ Yes ☒ No If so, which one? _____

3. What is your interest in the Opportunity Corridor project? ☐ Live in study area
☐ Work in study area ☐ Play in study area ☒ General interest/Concerned citizen

4. In the **West Section**, Alternate C (quadrant roadway) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

Trucks as ambulances, fire trucks, delivery and contractor type
as for utilities would need time saving routes. Timing is vital.
Inventions in demand would lure traffic and mail.

5. In the **Central Section**, Alternate B (continuous Woodland Avenue) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

Established routes of travel are better to remain to serve
a purpose.

6. In the **East Section**, Alternate C (Widen E. 105th Street to the east) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

A spill off route for eastbound traffic should parallel the bridge over to the street Norman. Twenty cars backed up could enter 105th street north of Quebec or travel west on Quebec. Need could be to avoid constant left turns down Quincy.

7. Do you have any additional comments on the Opportunity Corridor project? _____

- I am developing a skills bank for Fairfair (Kinsman neighborhoods).

Would like to speak to someone re:
the types of jobs that will be created
(construction) & what skills will be needed
so that our neighborhoods will get a jump
start on training & ~~upgrading~~ upgrading
needed skills.

**Cleveland Opportunity Corridor
Brownfield Area-Wide Planning Pilot Program
Charette Groups Meeting Schedule**

Charette #1

August 3rd (Mt. Sinai Church Library, 7510 Woodland Ave; 2-4 pm)

Advisory Committee and Other Study Area Institutions

- Discuss ongoing initiatives and receive feedback concerning what land-uses and configurations that stakeholders would like to see considered throughout the planning process.
- Allegro market study representative will be invited to share their initial findings that may provide information for the planning of redevelopment parcels, the sizes of parcels (market demand) and locations of various uses along the central Study Area.

Charette #2

August 10th (Ken Johnson Recreation Center, 9206 Woodland Ave; 8-10 am)

Business / Commercial Stakeholders

- Invite Miceli's, Orlando and other businesses to hear concerns, determine if they are shared interests and identify potential partnerships and concepts.
- Planning Team will report out on the Allegro study and relay what findings have been made to-date.
- NEORSD invited to present information related to Green Infrastructure and identify opportunities to assist in business expansions, land acquisitions and site reconstruction that meet standards for storm water management.

Charette #3

August 10th (Ken Johnson Recreation Center, 9206 Woodland Ave; 6-8 pm)

Residents and Resident-related Institutions / CDC's

- Listen to residents' concerns related to redevelopment, possible relocation opportunity (created by both roadway and development), desires for neighborhood infrastructure (new streets, housing, green space, etc.) and where new land-uses should be considered.
- Continue Brownfield education component by addressing questions.
- Invite RTA representative to discuss issue of improving access to public transit.
- Create a prioritized list of concerns / desires from the residents of the Study Area.

4. In the **West Section**, Alternate C (quadrant roadway) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

NO

5. In the **Central Section**, Alternate B (continuous Woodland Avenue) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

- ① WE NEED WOODLAND TO REMAIN AN UNDIVIDED ROAD. (NO MEDIAN)
SEMI'S ARE REQUIRED TO BACK IN TO OUR LOT & THEY NEED
TO STOP BOTH DIRECTIONS OF TRAFFIC AT SAME TIME.
- ② WE NEED KENNEDY (BEHIND OUR BLDG) TO STAY OPEN AS AN
ACCESS TO E 89th ST. WE NEED OUR REAR EXIT TO E 89th
FOR CAR & TRUCK TRAFFIC. VIA KENNEDY

6. In the **East Section**, Alternate C (Widen E. 105th Street to the east) was chosen to be included in the Recommended Preferred Alternative. Do you have any comments or concerns about this choice?

7. Do you have any additional comments on the Opportunity Corridor project? We have a problem with flooding, after heavy rain, on Woodland in front of our bldg. Hopefully this can be alleviated with the improvements to the Woodland / 89th St intersection.

Concern about the removal
of the Bridge at East 89th
St. at Woodland Avenue.
If there is no longer a
bridge there - you will
need to have a pedestrian
walkway ~~or~~ and a bike
path so that the people
north of Woodland can
get to the rec center on
Woodland and to Backeye
Road.

APPLICATION TO BE CONSIDERED A SECTION 106 CONSULTING PARTY FOR HISTORIC PROPERTY IMPACTS

-Please Print-

Organization:	Fairfax Renaissance Dev. Corp
Name:	Debra Wilson
Title:	Real Estate Dev. Mgr.
Address:	8111 Quincy Ave Suite 100 Cleveland OH 44104
Phone:	(216) 361-8400 (office) (216) 394-3507 (cell)
E-mail:	dwilson@fairfaxdev.org

Section 106 of the National Historic Preservation Act requires Federal agencies to consider the effects of their actions on historic properties.

The Section 106 process also encourages the incorporation of historic preservation values into project planning through consultation among parties with an interest in the effects of the undertaking on historic properties. Because consultation is a dynamic good-faith process of discussing options, considering multiple views, and seeking agreement among a variety of parties, your regular attendance, active participation, and constructive comments will be expected throughout the process.

Please summarize your interest in historic properties as related to this project:

a	Bd member Clevel Restoration Society
e	Turist for Historic Preservation Awards
e	Preservationist on FRDC's staff
e	Very familiar C 106 process
b	" " " " Cleveland Landmark Commission
a	Familiar C OHIO STATE Historical Historical Society
